PROFILE

I've always been passionate about website development. Since I was very young I started playing with codes. In the 9th grade i created my first website. One year later I decided to join a professional school, an ICT school where there I learned about web developing. Over these years I've learned a lot of things like : creating responsive websites, clean code, best practices and much more. I know languages like : HTML5(semantic),CSS (css3/Scss/SaSS/bootstrap v3-v4),JavaScript(jQuery , ReactJS),SQL,PHP and as a graphic designer I can use app like Photoshop and Illustrator.

EDUCATION

2015-2019 I ICT School
Gjergj Canco, st. "Mustafa Haska"

EXPERIENCES

2016 ∞ I FreeLance WeB Developer
TonerTaxi di Ilir Nika, Milano (Italy)
Hired for designing and developing websites and graphics for the company.

2017 - 2018 I GRAPHIC DESIGNER
PANAIRI I PUNES Tirane (Albania)
Design and create graphics like leaflets,banners,logos and much more for my school.

2018 - 2019 I FRONT-END DEVELOPER
ATIS SHPK Tirane (Albania)
3 month internship as a Front-End developer for a digital agency. The goal was to convert designs (PSD) to code (PixelPerfect)

2019 ∞ I FRONT-END DEVELOPER (ReactJS)
ALTECH Solutions (Albania)
Working as a Front-End ReactJS developer. I create websites from scratch and maintain already created projects.

THANK YOU FOR YOUR TIME!
